

Riverside's Annual Tree Cooperative Planting Program

The Cooperative Tree Planting Program, sponsored by the Village of Riverside, is designed to accept donations from residents for spring tree planting on parkways throughout the Village. Your donation will help to reforest public parkways, keeping Riverside green for future generations to enjoy. The Village is offering 50/50 price matching program that will cover half the cost of all trees planted on the parkway and public setback. The cost share is not applicable to public park areas.

Tree prices vary based on the tree species selected, sizes available, and the nursery or grower providing the plant material. All prices include tree planting, mulch, and delivery along with the initial watering of the tree installed. Residents are required to water the tree following initial installation to ensure survival and growth. Tree descriptions and order forms are available at the Village Office or the Village website.

Riverside's tree planting program requires substantial coordination between utility locators, the nursery contractors, and Village staff. Orders will be accepted on a first come, first serve basis, starting mid-July, and must be received by late August. Do not delay! The Village does not plan to offer another tree planting until the following fall season. Act now! Mail or bring a completed order form to the Riverside Village Offices, located at, 27 Riverside Rd., Riverside, IL 60546. Payments may be refunded if the Village is unable to install the tree due to utility conflicts or unforeseen issues.

We hope you will participate in this year's program. Should you have any questions or need additional information, please visit the Village Office to review plants available or call Village Forester, Mike Collins at (708) 442-3590 Extension 502. Thank you in advance for your participation. Remember, donations for the programs are tax deductible!
